

LICENSED ACUPUNCTURISTS in CENTRAL ILLINOIS

This is a list of Licensed Acupuncturists (L.Ac.) with Masters or Doctoral Degrees of Eastern Medicine in Central Illinois currently accepting new patients.

Everyone on this list is within 2 hours or less of Lincoln, Illinois. As much as I would love to continue to see each of you in person, my Chicago location is on the north side of the city, which, when calculating for traffic, is a 4+ hour drive. Sitting in traffic and traveling that distance may have a detrimental impact on the healing we are working on in a 60-90 minute acupuncture appointment. A 2 hour drive or less will have a much more positive effect on the results of your acupuncture care.

I have spoken to each of these practitioners myself and wholeheartedly recommend each of them. I am confident that they can provide you with quality care. Please note that I have only included Licensed Acupuncturists. There may be chiropractors or physical therapists using acupuncture without a specific license, but I have not included them on this list. My hope is that there is someone for everyone's needs and location on this list. Please reach out to those nearest to you to initiate care.

If you are unable to see any of these practitioners, you may continue care with Moon Hill Acupuncture via phone consultations (which includes herbal formulas, diy acupressure, lifestyle & dietary recommendations) until a better solution arises. As always, my utmost priority is empowering my patients to take control of their own health and wellness. May you continue to find the support you need in order to live life happily and healthfully.

#YourHealthIsYours
